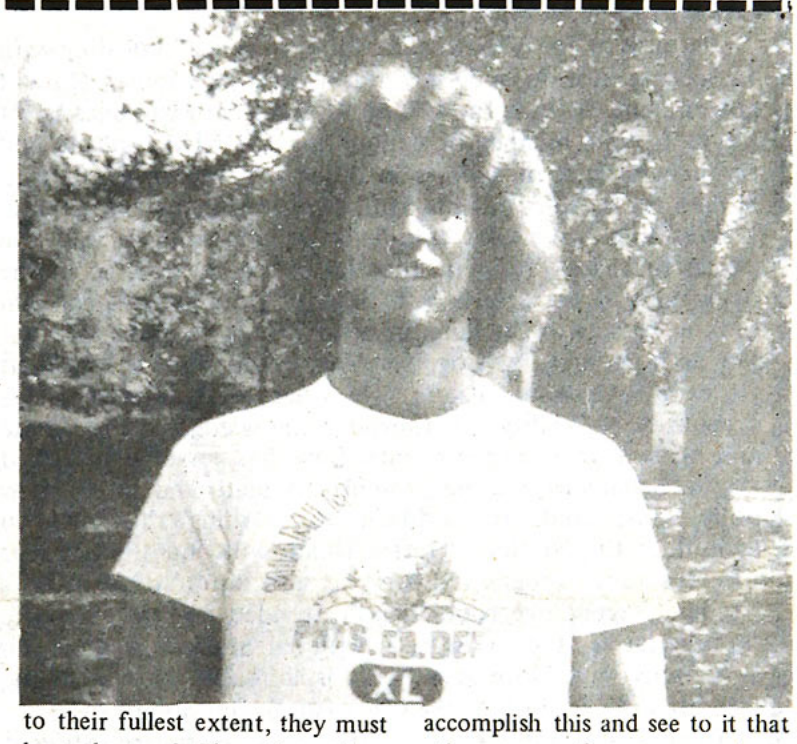
THREE WAY RACE FOR TOP SPOT–SGA PRESIDENT

Joe Valenti



The SGA was initiated to act as the voice of the student body and the administration. To be more specific, the liaison between the students and college heads. When used sufficiently, the SGA is the students' most powerful tool in acquiring the rights and privileges social acceptable to date. There are a few people who feel the SGA is an insufficient element on this campus. However, these are the very same people who have yet realized the full potential of the office. All channels are open. It is up to you, the student, to see that they are used correctly. Before these channels can be used to their fullest extent, they must be understood. There is a serious lack of communication on this campus which I feel is the basis for the majority of the problem. I see it as one of my duties to restore the communications link between students, the administration and, more important, the board of trustees. We can accomplish this and see to it that other areas of concern such as residency requirements, visitation and dorm renovations, where action has been taken, can be extended as much as possible. It can be done, but only with the combined efforts of the SGA and, more important, the student body.

Dennis Mullen

As Vice President of the SGA, I feel we have taken substantial steps toward the betterment of the Saint Leo College community. Although many of our proposals ended up being compromises, we still achieved a strong working relationship with the administration, and restructured the student Senate to be an effective means of obtaining change. If elected President, I would view as my primary responsibility the continued expansion of this year's projects (CUB, visitation, dorm renovations, board representation, etc.) and continuation of a strong Senate. The only thing standing in our path of success is student apathy. If we joined together as a single working unit, all of our goals would be easily accomplished.

Kevin Lamb

No Statement Provided By Candidate

Editorial

Monarch Edorsosement

Each year the student body has put before it several individuals who express a desire to serve as their elected representatives through the offices of President and Vice President of the Student Government Association. Each of the candidates tries in his own way to convince the voters that he is the best man for the job. The means of doing this vary with the candidates, but in the end the process remains the same with the voter making the final appraisal.

In making our appraisals of the candidates, the editorial staff considered the candidates past record and, through personal interviews with each of the candidates, their perceptions of the job and how they saw themselves functioning within that position. Considered also were the candidates identification of problems and the solutions they offered to their resolution.

Because of Joe Valenti's lack of experience in dealing with the administration and only recent participation in student government through the College Union Board and because of Kevin Lamb's manner of conducting the CUB's affairs and the general lack of success in doing so, we endorse Dennis Mullen for President of the Student Government Association.

Presiding over the Student Senate requires of the successful Vice President that he be knowledgeable in the operations of the Senate, for his task is to organize people in such a way as to get tangible results. It is on this basis that Monarch endorses Al Love for Vice President of the Student Government Association. He has demonstrated his organizational ability, his thorough knowledge of the Senate and his skill in attaining results. Love has personally worked in the Senate to get the present hot plate and refrigerator policy instituted, in addition to working this year to formulate the Student Traffic Handbook and the Student Life Insurance program. Love was also editor of last year's Golden Legend yearbook and attended as the Senate's representative, the Southeast National Student Association conference last November. This is a record of continuing interest and success that the other candidates do not offer.

In the interests of an active and aggressive Student Government Association, we urge all students to vote.

Key To Student Unity ...Voting Wednesday

By Jerry Mulligan

Walking around the Saint Leo campus, it is obvious that the Student Government elections are once again upon us.

All over campus we see the various creative projects of our politicians hanging from the walls and doors of almost every building. They claim experience, know-how, intelligence, thriftiness, and various other superb qualities.

Many promises are being made and many students are having a hard time finding out who really is the best. It is too bad that in the past our politicians have proven that this is their most creative time of the year. When it is time to actually get down to work, their creativity is diluted by the importance of their positions.

In the past this organization and its leaders have been accused of being powerless. It is often said that the Student Government Organization is handcuffed by the administration. This is not true. The Student Government Organization is handcuffed by itself. It is handcuffed by its own bureaucracy and lack of unity.

The most powerful group on campus should be the students. Students make up the largest number of inhabitants of the campus. Power is in numbers. Also, students happen to put more money into Saint Leo than any other group on campus. Money is power.

It is the job of the Student Government Association to take this power and form it into a unified group. This group should follow the interests of the majority of the students.

The SGA has for a long time sat back and argued about ridiculous problems that affect no one except the SGA. The SGA should not be used by the College to divide the students against themselves. It should be used by the students to secure the power which is rightfully theirs.

There is only one way that students can make the SGA a respectable representative group of unified students. This is by going out Wednesday and voting for the candidates that truly represent them.

As students we should not vote for our friends. We should vote for those who will do the best job. We should not vote for the girl with the nicest legs. We should vote for the candidates who can organize and represent the students so unity can be achieved.

It is time to act. All students must vote.

Ask the The Candidates A Question

And Put Them On The Spot

Publication Notice

The next issuse of Monarch will be April 3 1975 . All copy should be submitted by Wednesday April 26, 1975.

Statement of Policy

The editors have offered all Student Government Association candidates the opportunity to make a 500 word statement and respond to five questions with a limit of 50 words each. The candidates were informed that their statements and answers would be edited to conform with the word limitations as have been indicated.

The candidates were informed of the rate schedule for political advertising in this edition. Those candidates who took out advertising have paid in full previous to the date of publication. Candidates were allowed to seek a preference as to the positioning of political advertising at the time of payment on a first come first served basis within the restrictions previously established by the editor.

The statement and answers made by the various candidates represent their personal views and not necessarily those of the staff or the college and appear as the candidate presented them without editing by the staff.

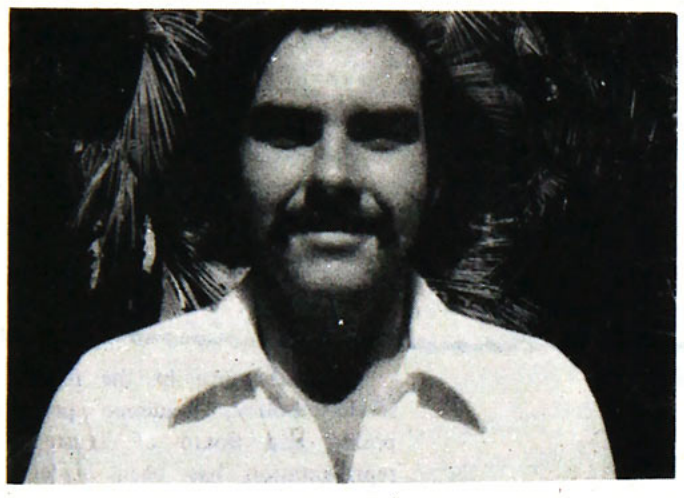
MONARCH is the official publication of the collegiate community of Saint Leo College. Opinions expressed do not necessarily represent the views of the MONARCH staff, or the College's administration or faculty, unless otherwise stated. Articles, letters to the editor, pictures, display advertisements and other copy should be submitted one week prior to the next publication date.

MONARCH offices are located in Saint Leo Hall (office with the red door). *Correspondence may be directed to P.O. Drawer 2126, Saint Leo, Florida 33574, or phone (904) 588-2121, ext. 220.* MONARCH is distributed free to the college community. Subscriptions to the non-collegiate community are available at the cost of five dollars (five dollars more outside the continental United States). Application to mail at second-class postage rate is pending at St. Leo, Florida.

THREE JUNIORS SEEK VICE PRESIDENCY

★★★★Viniy Payne★★★★



Saint Leo College has been very rewarding to me in the years that I have been here. I've learned much about policy and the general interest in the student body. Each year, as the school improves, it's the students who provide the know-how. I noticed, back in August with the addition of college field, the students were generating more interest. Now, all football games are on campus, and also the soccer games. As long as we know they give 100 per cent, the support will gradually increase. The field can also be utilized for many other activities. This is only one asset which the school has provided.

In the future years, I feel Saint Leo College will be a better place to increase your educational opportunities. Because this institution is still very young as a college, it is still seeking more organizations to help fund specialized programs. For example, giving them a few years, the Alumni Association may be able to provide the library with new materials. As a business major, I can see how the school can at times run into financial difficulty. The present status of our economy reflects back to any large institutions.

As I came back in the second semester, I knew things would change for the better. Immediately the College Union Board was set up. So far it has provided the Saint Leo students with much more than it has had in the past. The chairman, Kevin Lainb, has done a good job in its first year of existence. If we can continue to add such committees as the College Union Board, Saint Leo College will be more of a home community.

Being actively involved in my fraternity has given me more confidence to run for an SGA position. I'm presently the vice president of Phi Delta Omega and aware of the many problems an organization can have. This position has given me a lot of experience in leadership. I've learned a great deal about the priorities needed to build a better organization.

Seeing that Saint Leo College has helped me in more than one way, I feel they deserve some consideration from me. My objective in the SGA will be to improve any facility that will better our school. If we think and work together, more compromises can be brought forth. Judging this year as a whole, I think we have shown more as an academic basis than in the past. More students are becoming aware of the needed improvement in the working world. We can better any situation if we have the patience and the ability to succeed. As each day passes by, Saint Leo College is becoming a much better place.

★★★★Alfredo Zayas★★★★

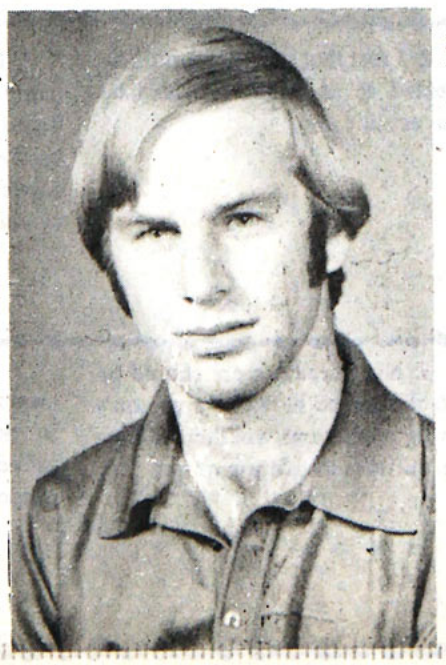
As the 1974-1975 school year is drawing to a close, I look back and see that this year's SGA has made a lot of improvements for the students. For example, they finally unlocked the door on visitation in the women's residence halls. Also, the quality of entertainment has improved. I won't let it stop here.

In order to make the coming school year more prosperous, there are numerous things I wish to accomplish. I would like to hold more fund raising activities to build up the SGA treasury. This will enable us to sponsor more and better functions. I would also like to see some improvements made in the dorms and lights on the service road and tennis courts. But, we all need to work together.

I believe a school is what we the students make it. A time of spirit, unity and activity. But unfortunately we are lacking in those two most important factors vital to our success, unity and spirit. If elected in the SGA, I will try to gain spirit and unity from you, the members of our school. By having a student body that is interested in the welfare of the school, one can achieve almost any goal. If all the students here who want to see things changed would get involved and try to do something about it, perhaps half the battle could be over. No man is an island entire of itself. Each and every student is needed to help accomplish any said objective. Without the concern of the students, the SGA can't accomplish these things on its own. So, you see, the future of our school is not only in the governing officers' hands, but rather in the whole student population's.

I leave the future of Saint Leo College up to you, the students of our school. If you want someone who is willing to truly work at the things that need to be changed and who is concerned about what is happening to our school, then vote for me. But before you vote, ask yourself this question: Am I willing to speak up and work for improvements in this school, or am I just going to let the other guy do it? I hope you will decide you want to help out and get involved. Your vote is the pathway to a better year. Thank You.

★★★★Al Love★★★★



I am a candidate for Vice President because I feel that I can continue the changes that SGA has begun. I feel I can add some new ideas and programs to Saint Leo College which will aid all students.

One of the big problems here at Saint Leo is the condition of the dorms. If the school would pledge all the materials, I feel we could increase the community spirit by doing most of the work ourselves and I will personally do my share.

Another area of concern is the financial problem, not the college's, but the students'. Many students can't buy what they want because of the high prices. If elected, I would work towards the implementation of a student Consumer Union which, through local merchants, would give students a percentage off most purchases.

An area where many students do not participate is the rip off areas. Many students get ripped off here and I feel SGA could do something about it. The SGA could set up a Personal Property Insurance program in which a student would pay $3 – $5 yearly and get protection for all personal items.

I feel, to increase the unity of the student body, it would be great to move one girls dorm to the main side of campus. If the dorms are remodeled, this would be possible.

The last area in which I see a need for change is the food program here on campus. The students should have a say in regards to what food company Saint Leo hires.

My experience in SGA has been gained over the last two years. I've worked on the refrigerator and hot plate program, which we now have in effect here at Saint Leo. I have just finished work on the Student Life Insurance program. I have also completed work on the Student Traffic Handbook which will go into effect in September. Other experience I have includes: editor of the yearbook in 73-74. This year I am business manager of the Monarch, while holding this position I raised $3,700 in additional funds which enabled the paper to be printed weekly. I am also the United States National Student Association coordinator for the Saint Leo College Student Government Association. I am also a member of the Publications Board.

As my experience shows, I have worked in the past and, if elected, I will continue that work for the betterment of Saint Leo College.

MONARCH QUESTIONS THE CANDIDATES

	1. What do you see as the SGA's function?	2. Do you accept the rationale that because Saint Leo College has the status of a private institution that the college "student life policies" should be different than those in society at large?	3. Would you run if there were no scholarship accompanying the position?	4. Are you satisfied with the current role that students play in decision making at Saint Leo? If not, specify those areas that need to be opened up to student participation.
President **Kevin Lamb**	**Candidate Did Not Respond To Any Questions**			
Dennis Mullen	1. The SGA is the channel by which the students' wants and needs can best be obtained. If any progress is to be made toward improving the Saint Leo College environment, it will only be through an organized group of students working toward a common goal.	2. No, I do not accept that rationale, but if Saint Leo College policies are to be changed to meet present social standards, it can only be done through proper channels of petition.	3. Hell, no!	4. I feel voice in the food service policy, academic proposals, and Board of Trustee representation has been inadequate.
Joe Valenti	1. I see the SGA as the liaison between the students and the administration. It's an organization which works towards the wants and needs of the student body. After all, the executive board of the SGA is elected by the students for the students. Therefore, we must arbitrate the opinions and requests of the students for the eventual well being of the college community.	2. No! Saint Leo is a private institution and has the right to set policies as deemed necessary for the betterment of the college. However, the guidelines used to make these policies must coincide with social mores of the times if the students are to be well rounded individuals able to cope with today's problems, not yesterday's.	3.To say that I am not attracted by the full year's scholarship would be deceiving. However, it cannot take precedence over the obligations of the president to insure the rights of the students.	4. I feel the students are adequately represented through proper channels. Unfortunately, the potential of these channels has yet to have been realized.
Vice President **Al Love**	1. I see the SGA's function is to serve the student body of Saint Leo College. Whatever need the students have, I feel SGA should make an all out effort to see that all those needs are met.	2. I feel that the school does not have a right to limit student life policies, being a private institution. I feel the school should grant all rights which you have in society. I also feel the students through the SGA should continue to ask for these legal rights.	3. I feel that the job does need a scholarship with it, but as my record shows I have done a lot of work for SGA and never received a scholarship.	4. I am not satisfied with the student role in decision making here at Saint Leo. I feel students should be consulted on whatever problem concerns them directly or indirectly.
Viniy Payne	1. The Student Government Association's main purpose and concern is the students here at Saint Leo College. The SGA provides the forum for any student, not just the senators, to voice his opinions concerning any school topic. In this way the SGA becomes the voice of the students.	2. Saint Leo College being a private institution does have certain priorities which it must uphold. However, I do feel Saint Leo College's priorities should run in congruence with the norms of society at large. I feel that the aim of Saint Leo College is to prepare the student to take his place in society after graduation. By	3. Naturally, the scholarship encourages students to seek the offices. My purpose for running for vice president is that I feel that I can do a good job. If elected, I will do everything in my power to better the school and promote student interest.	4. One of the functions of the Student Government Association is to make available to the students any decision, either accepted or rejected. With the initiation of the College Union Board this year, I feel that the student body has more of a voice than in previous years. With this board, I feel that it is a step in the right direction.
Alfredo Zayas	1. I see the SGA's function as a government setup for the benefit of the students, providing better services for the entire college \population.	2. I feel that an adult should be treated as an adult, provided he can act like one.	3. I am currently serving on the Campus Court and Men's Judicial Board, which have no scholarship involved whatsoever. So my answer would have to be , Yes, I would still run.	4. No, because there is not enough student participation in the decision making process at Saint Leo. I especially would like to get students involved in the choosing of academic courses to be offered at the college.
Ted Kolwicz	1. The SGA's function is to try any students' demands and improve overall conditions. Also, it serves as a mediator between students and the administration.	2. No, because there should be no difference between a person's living regulations whether he lives in a private institution or not.	3. Yes, because the scholarship awarded to the office of treasurer is not substantial enough to influence me to run for that sole purpose.	4. No, I feel that the students have no influence over the rules that guide them. One area that could enhance more student participation would be to attain more of a student voice in the board of trustees' decisions on policies which affect the student body.

5. What areas do you see that need immediate attention of the SGA?

5. Besides hoping for continued progress in the proposals we passed this year, I would like to see first and foremost dorm renovations and the establishment of male - female dorm complexes. Example: Roderick changed to female residence and Snyder changed to a male residence. This

The age old problem of apathy. Student participation is the heart blood of all activities on a college campus. For example, you can't have Greek Weekend if the Greeks don't want to participate; you can't have intramurals if no one bothers to set up schedules and teams. The reason is obvious, poor communications! It is as easily solved as it was isolated.

5. I see the immediate attention of the SGA is the communication at Saint Leo. I feel the SGA should keep everybody informed. The more informed the students are, the more willing they will be to associate themselves with Saint Leo as a community.

5. The present SGA has done much to improve the living conditions of students on campus, the visitation in the girls dorms, the abolishment of mandatory on campus living, all are a step in the right direction. These accomplishments are a start and much can be done to improve and implement these areas.

5. I believe there should be a committee meeting with the Board of Trustees to have better relations between us. Also, I would like to see more student involvement in the SGA, improvement of the dorms, lights on the tennis courts, and an improved way of life for the students.

5. The area which needs immediate change is making the students more aware of what action is actually taking place within the SGA. One way of accomplishing this would be to publish a monthly report to the students of all activities and actions regarding the SGA.

Questions Continued	1. What do you see as the SGA's function?	2. Do you accept the rationale that because Saint Leo College has the status of a private institution that the college "student life policies" should be different than those in society at large?	3. Would you run if there were no scholarship accompanying the position?	4. Are you satisfied with the current role that students play in decision making at Saint Leo? If not, specify those areas that need to be opened up to student participation.
TREASURER **Bob "Panda" Lennox**	1. I believe that the SGA should not only represent the students as a voice of the students, but as an administrative power.	2. No, students over the legal age of 18 (not 21) should be treated as adults. If the administration of this school wants students under 21 to sleep in the dorms, they should "walk a mile in our shoes."	3. Yes, but truthfully it does serve as an added incentive.	4. No, I think there should be a student elected to the board of trustees and faculty meetings for obvious reasons.
Vicki Newton	1. To me the function of SGA is to represent the student body as a whole. The members are obliged to respond to the needs and wants of the student body by voicing their opinions at the weekly meetings of the senate. The SGA members must also vote objectively on all matters and listen attentively at the meetings.	2. In some respects I accept that, since we are a private institution, that "student life policies" should be different from those in society at large. However, due to the present economic situation, the college policies student life and college policies more appealing to the incoming students.	3. My main objective is not the scholarship. I am basically and sincerely enjoy this type of work, as how in the future I hope to be an accountant.	4. No, I am not satisfied with the role that the students have in making decision here at Leo's. Students make irrational statements regarding decision making policies due to the lack of misinformation or no information at all received from "the higher ups" involved.
Kevin "Barney" Remarchuk	I see the SGA functions are to set up governing policies for the students and also to make college life more appealing to students, so that students may become involved in students' activity on campus to function as a whole college community.	Because Saint Leo is a private institution, it has the right to set up its own polices that students must abide by and I think that, because the student chose to come here, it is his responsibility to go by the rules of Saint Leo College. I do not feel that the college asks too much from the students to make student life difficult to live.	I feel as though I would run for an SGA office, even if there wasn't a scholarship involved, because I am the treasurer of the CUB which is very much the same as the SGA and I am doing that without any scholarship.	I am very satisfied with the role the students have in decision making and I feel in the future that students will probably have more of a say. The students set up a new traffic handbook that was approved and also students voted that they should have the right to choose whether or not they wanted to live off campus. Now more students are permitted to live off campus.
SECRETARY **Eileen Brennan**	1. I feel the SGA is the voice of the students. Its function should be to concern itself with all aspects of student life. The SGA should handle student complaints, make recommendations concerning policies the students want changed, and work with the administration for the students' betterment.	2. No. But since the school is a private institution, it does have the right to impose policies it wants. We agreed to be subjected to the policies when we enrolled in the school, but that doesn't mean we can't work to change them.	3. Yes. I think the scholarship would be nice to have, but I would want the job anyway. It may be more of an incentive for the president or vice president, since the scholarship is larger.	4. No. Even though students may make recommendations and present their views on issues, they do not have the final decision. I feel that the first step is to let the president of the SGA become a voting member of the Board of Trustees.
Anna maire Moschella	1. I feel the function of the Student Government Association is to help the students establish comforatble academic and student life policies. They can only do this with the student body behind them and the administration openly interested.	2. Having a small number of students and knowing each other on a one-to-one basis, we should be able to establish a pride in Saint Leo. Instead, our very fair administration have made more rules and regulations than our parents ever asked us to follow. Most of our advantages have turned into disadvantages.	3. Being honest with you, I would have to say no, because I have to work to be able to continue my education. Without the scholarship I would have to work somewhere else.	4. No. I would like to see more cooperation between the students and administration in order to improve the atmosphere surrounding Saint Leo College. The students could be a great asset to the financial problems of this school, if the administration would only listen to them.

John Gallagher

Sophomore Class President

ELECT-A-WORKER

Secretary

Eileen Brennan

I'm running for the office of Secretary of the SGA because I would like to work for the students. For the past two years I have been a member of the Senate. As a member of the Student Rights Committee I was sent by the Senate to New York for a national convention on students' legal rights in November. It was very informative and gave me a lot of ideas for helping students achieve what they want. I am concerned about students and feel that we can get things accomplished if we really want to.

I have worked in the capacity of a secretary. Last summer I was employed by the Jacksonville Area Planning Board as a clerk typist. Therefore, I do feel I have the necessary qualifications to do the job. I am willing to work and I would like to be the next secretary of your SGA.

5. What areas do you see that need immediate attention of the SGA?

5. In areas concerning school spirit, faculty - student relations, and thoughts stated in question 4.

5. I feel that the SGA needs to give immediate attention to informing the student body of what is going on in the senate and CUB. Otherwise, the SGA is doing a great job.

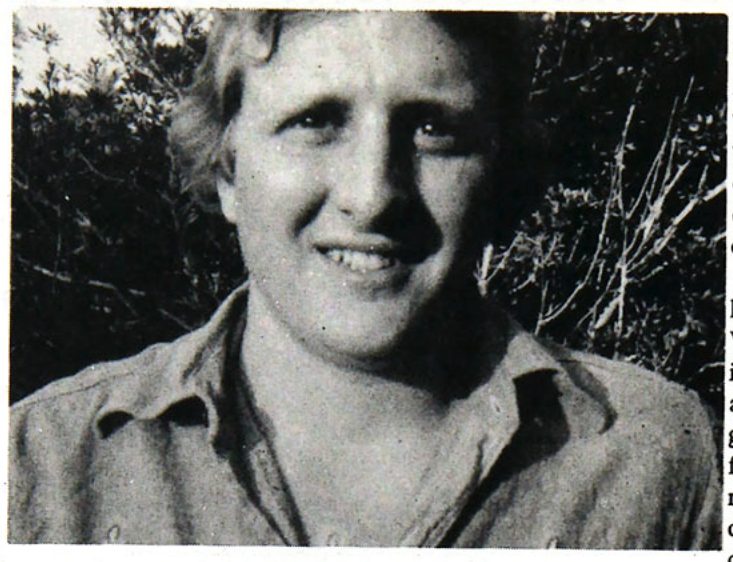
I feel the SGA needs immediate attention in trying to get more students involved in campus activity and make the campus more appealing to the students.

5. The SGA has been working for the abolishment of women's curfew and I think this needs to be accomplished. One major thing I think we need is perhaps a general student body meeting with the President of the college, so we can have a "state of the college" address from him with time to ask him questions.

Candidate Did

Not Respond

STUDENTS SEEK TREASURER SEAT



Bob "Panda " Lennox

In the past three years that I have spent as a student at Saint Leo College, I have learned a lot. Not only academically but socially. As a freshman, I worked with the Dean of Men (then Mr. O'Gorman) in establishing a fairly successful social program that opened up the lounges of St. Leo (now turned into classrooms), St. Eds, Benoit and Lee Marvin. We put pingpong tables, pool tables, televisions in each lounge and showed a various number of movies. During this time that I worked in the lounges, I spoke with many students and exchanged ideas on how Saint Leo could be improved socially as part of my job.

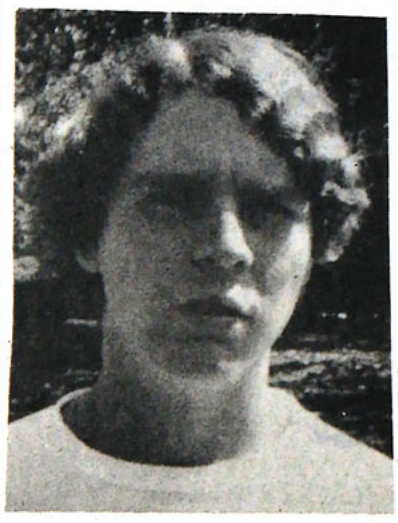
During my other two years here, I have worked in Audio Visual in which I served and came in contact with students, teachers, and administrators alike and also gained some experience in filing, filling out work orders, and requisitions in dealing with different film and equipment companies.

I have also heard a lot of promises, few were kept, and many were broken. So, I do not intend to B.S. anyone by making a lot of promises. The only promise I intend to make and keep is that if I am elected treasurer of the SGA, I will work for the students in trying to make sure that our voices and money do not go to waste.

"Barney" Remarchuk

Presently I am a member of the College Union Board and in that organization I hold the position of treasurer. My duties and functions of that position are very much similar to those of the SGA treasurer. I have learned and functioned in the very same manner as the treasurer of the SGA and I feel as though, by gaining ability and experience by serving as treasurer of the CUB, I will also be able to meet all the qualifications and function properly as the SGA treasurer.

Ted Kolwicz



I am presently a second semester sophomore majoring in Accounting and Criminology. I'm also a member of the Alpha Sigma Chi fraternity and have been on the baseball team for the past two years.

My reasons for seeking the position of SGA treasurer are to be more actively involved in the attempt to meet the students' demands. I feel that with my background of being an accounting major and the desire to have a hand in the function of the SGA are essential qualification for becoming treasurer. There is no doubt in my mind that I could not do a good job as SGA treasurer and I would like to have the opportunity to do so.

Vicki Newton

No Statement Provided By Candidate

Annamaaire Moschella

As a candidate for the position of Secretary of the Student Government Association, I would like to offer to you my experience as a secretary.

I have actively worked as secretary of the Golden Legend, secretary for the Pasco County Association for Mental Retardation, and assistant secretary to the Office of Placement. I am currently the secretary of the Monarch and the Encounter.

Feeling that cooperation within an office is essential, I've always worked to the best of my ability to do my job efficiently and accurately.

I'd like to assist the students of Saint Leo College in letting their voices be heard. With this desire and my experience as secretary, I feel I can do something for others. Let me have an opportunity to try.
